

26. March 2002

In memory of Ron Dwight

We are in great grief as we need to announce the death of our friend Ron Vivian Dwight. Ron was responsible for all global sales of WinRAR. He has set the course in a windy market and established a network of good people and good friends.

From RARLAB.COM:

RON DWIGHT
1944 - 2002

It is with deep shock and infinite sadness that we announce the untimely passing of our good friend Ron Dwight, who did so much to support RAR users and promote RAR. Those who knew him respected him for his charisma, for his wit, for his strong bargaining techniques as well as for his unique and penetrating mind. He will always be remembered...
God bless.
